WORK EXPERIENCE

LaborEdge, US (Mewhiz Services Pvt. Ltd.) - Remote | 16 August, 2023 - Present

Senior Instructional Designer (Promoted from Content Developer)

Healthcare SaaS (Nexus) | Team of 5 IDs | Litmos LMS | Agile Delivery

- Architected a **six-programme learning ecosystem** for a healthcare SaaS platform spanning onboarding, compliance, workflow adoption, customer education, partner enablement, and certification, creating scalable infrastructure for product and user growth.
- Led and mentored a **team of 5** Instructional Designers, overseeing LMS administration, certification programmes, content quality standards, and Agile delivery while partnering with Product, Sales, and Customer Success teams.
- Translated **20+ ATS integrations** into structured software enablement programmes using **Articulate 360, simulations**, and performance support resources, simplifying complex NexusATS workflows and reducing support escalations.
- Designed and launched **250+ learning assets** across onboarding, compliance, workflow adoption, customer education, and partner enablement using SAM and LXD methodologies, supporting **1,000+ users** across customer and partner audiences.
- Developed a Sales-adopted product storytelling resource and integration video library that generated **250+ views in 30 days**, extending learning beyond the LMS into customer-facing adoption workflows.
- Established content governance and QA frameworks alongside managers that streamlined delivery across a distributed team, reduced revision cycles, and accelerated publishing of new learning assets.

Byjus, India (Think and Learn Pvt. Ltd.) | February, 2020 - August, 2023

Curriculum Lead - Content Development (Promoted twice in 3 years from Developer)

K-12 EdTech at scale | Upto 12 Direct Reports | Multimedia Learning Principles

- Led K-12 Science curriculum development for **Grades 4-10**, creating learner-centred curricula, assessments, and instructional pathways across digital and instructor-led learning environments.
- Drove **curriculum strategy** in collaboration with academic leaders, SMEs, and senior stakeholders, ensuring alignment between learning objectives, engagement strategies, and instructional outcomes.
- Managed large-scale curriculum operations using **Microsoft 365 and Google Workspace**, streamlining content planning, stakeholder communication, and cross-functional delivery during a period of rapid organisational growth.
- Supported content governance and review workflows through **Ftrack**, training team members on review processes, quality standards, and feedback management to improve delivery consistency across a **12-person team**.
- Leveraged learner analytics and post-delivery feedback to refine instructional design approaches, receiving the **Star of the Project - BHP** award and **Performer of the Month (December 2021)** for excellence in quality, leadership, and execution.

Venper Academy, India | March, 2019 - January, 2020

Teaching Faculty - Chemistry for National Competitive Exams

- Designed and delivered assessment-driven Chemistry live classes for NEET and JEE aspirants, developing differentiated learning experiences and performance-focused interventions that strengthened examination readiness and subject mastery.

Genext Students Pvt. Ltd., India | July, 2018 - February, 2019

Academic Tutor

- Delivered personalized classes through tailored assessments and targeted interventions, improving learner engagement, retention, and academic performance across assigned subjects.
