Lesson: Nursys Partner in a Nutshell		SME: Kavita Tenshe
Course: Nursys Integration		ID: Anusuya Devi
PM: Joyce Thomas		Animator: Ismat Singh
Product: Animated Video		
Storyboard ppt: Nursys in a Nutshell.pptx		
FRAME	SCREEN DETAILS	NARRATION
Introduction & Value Proposition	Image: Nexus logo with Nursys logo in theme background. Depiction of document verification. 	Nursys meets NexusATS-Your effortless nurse licensure verification starts here.
Why Nursys? + The Power of Integration	Concept graphic required	Nursys data is secure, current, and reviewed by the State Boards of Nursing.
	Concept graphic required	NexusATS connects with Nursys to auto-pull the verified licensure data directly into your workflow. The Nursys integration powers real-time compliance checks and alerts for expiring credentials.

Demo Video Blueprint

Where the Data Lives in NexusATS?	Image: Nursys logo on candidate compliance screen. 	Nursys is integrated into each candidate's compliance section in NexusATS.
Why Verified Data Matters? (What's the risk without this integration?)	Video: Showing the list of unverified license details -> later validated through Nursys -> Flagging the mismatch data from the search results	Compliance details manually entered by recruiters and candidates are often unverified—but with Nursys, they can be instantly validated within NexusATS. In case of a data mismatch, Nursys flags it by pulling the correct one—ensuring no more credibility issues.
	Image: Cropped view of Nursys pop-up screen showing the license details. 	The extended validation details offering deeper compliance insights—like encumbrance, expiration, and active status—ensuring confident compliance every time.
Value Addition: Multi-State Insights	Image: Cropped view of Nursys pop-up screen showing multi-state license details. 	Nursys also expands a candidate's work range by clearly displaying detailed multi-state license eligibility.

How does the integration work within NexusATS?	Video: Opening Nursys Screen by clicking on the logo -> entering the mandatory license details -> Pointing to the 'Search' button	Using this integration is easy—just click the Nursys logo, enter the mandatory license details to verify or fetch them from the database.
	Image: Nursys pop-up screen showing the search results. 	The search results display all details, including the license's current status.
	Video: Opening Nursys portal's QuickConfirm License Verification page by clicking on URL -> Scrolling down and pointing to the 'View Report' button -> Pointing to the 'Download Report' button	For external verification, use this URL to access the Nursys portal's QuickConfirm License Verification page where you have options to view or download the detailed report.
Background Monitoring	Image: Nursys in Notification preferences panel 	The NexusATS scheduler regularly checks Nursys for license status changes and sends automatic update notifications to users.
